

*We invite you to be part of the change towards a
better future for Egypt !!!*

Participation through Sponsorship

Dear friends,

May this letter find you in good heart!

“As young Egyptians and as Art of Hosting practitioners, we have been inspired by Egypt’s non-violent revolution to help build a new Egypt. Through civil disobedience, the authoritarian rule of the former regime has been dismantled. We believe that in order to build in its place a new society that is just, thriving and diverse, we must nurture creative, agile and authentic forms of civic engagement.

With the Art of Hosting Social Transformation workshop we wish to create a safe space for collective learning for those, who have been similarly inspired and who are keen on shaping civic engagement in Egypt.

- Youth of the newly born Egypt

This letter is an invitation for you to participate in making co-learning of this kind available to those who are also on this journey of learning the new skills for working generatively with social transformation, and who are seeking others with whom to travel.

Sponsoring people, sponsoring learning

There are many people who already wish to join us, some of whom need financial support or sponsorship to participate. They are those courageous Egyptians that have been standing on Tahrir square day and night to fight for their freedom. They are those who have been holding the space for this revolution to happen since many years, in the underground or even from abroad, and are now ready to step up to engage in rebuilding their new Egypt. They are the youth of the newly born Egypt.

So what do we mean by “sponsorship”? We see sponsorship as:

An investment in the young leaders of Egypt and in the future of a country in transition.

An act of love, a gifting that invests in the fruition of dreams and learning journeys of our ‘others’ as well as our selves.

A way of encouraging money to be simply one of the necessary enablers’ of participation.

We therefore invite you to participate by offering whatever financial support you can so that others can join us who otherwise wouldn’t be able to afford it.

If you would like to offer something to the collective pot and to sponsor someone else's participation or simply gift for joy of gifting to support transformation in the Arab world and Egypt’s crucial role in it, then please make any payment - however small - to the following accounts (see next page), and we will send you a receipt.

We will use the contribution to cover the costs of this workshop, including accommodation, food, materials, and to cover expenses of the hosts.

If you have any questions at all, don’t hesitate to contact us!

With much love and gratitude,

Mongy, Motaz, Ulrike, Maria, Simone, Hendrik and Silas

Here is the payment information

Wherever you make the payment to, please add “AoH Egypt Sponsorship” as payment reference
